Online Education

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.

The global pandemic COVID 19 has brought the world to standstill in all facades and profoundly affected the most underprivileged disproportionately. All sectors across the globe including education space has seen unprecedented crisis which the world has ever witnessed and disrupted the teaching-learning ecosystem on an unimaginable scale. Thus, exploring opportunities to reconstruct the education by making the learning ambience more conducive, shifting from instructional-based approaches to competency-based approaches especially in the higher education space through online education is a challenging endeavour. However, online education has shown more maneuverable and acclimatised to respond optimistically to the dynamic aspirations of the learner. It is also seen to pave way forward for life-long learning. By virtue of rampant expansion to e-learning eco-system, the digital divide has brought immense challenges to the teaching and learning community. While integrating the e-learning platforms to enable teaching-learning deliverables, we have truly witnessed issues such as a) lack of tools, b) technical infrastructure and c) capacity of either community to adopt to the digital framework. This has widened the boundary and created inequality in quality of delivery and quality of learning.

Despite all the odds, Global Academy of Technology had taken significant measures to foster online education and digitised the entire teaching-learning process during the unprecedented time. Following are the few well-articulated strategies to manage and mitigate the risk attributed to the digital divide.

a) All students were given Global Academy of Technology's domain email in Microsoft platform to bring them into online education space.

b) Depending on the technical feasibility viz. hardware infrastructure, software infrastructure, online enabling platforms and internet bandwidth, members of the fraternity were informed to choose the delivery platforms. Microsoft Teams platform, Google Meet and Zoom Platforms were used to conduct the online classes.

c) Considering the screen access time and students' retention/stress level, the number of sessions per day had been rationalised accordingly to minimise the anxiety level among students.

d) Diligent attempts were made to fully automate the Continuous Internal Evaluation (CIE) components viz Internal Examinations, Assignments, Surprise Tests and Presentations using the embedded Microsoft Teams products such as Microsoft forms, Virtual Classrooms through Channels and Google products such as Google Classroom and Google forms. These were imbibed from the various distinct digital learning initiatives from the Apex bodies such as Swayam, NPTEL etc. Indeed, these endeavours had yielded splendid results during extraordinary times.

e) We had also explored blended mode of learning and conducted virtual experiments by exposing the students to various technology simulation tools which are well appreciated by industry. To augment the virtual experiments, students were instructed to navigate the URLs viz. <https://vlabs.iitkgp.ernet.in>, <https://de-iitr.vlabs.ac.in> and software tools like MATLAB, SIMULINK and KEIL etc. Apparently, they were suggested to undertake DIY mini projects to improve their technical competencies.

f) To encourage and keeping the enthusiasm, we held various events such as GAT-TECH challenge, STEM Challenge, Musical compositions, Video book Contest, Skit, Sketch competition, Fiction/non-fiction Poetry competition to augment co-curricular and extra-curricular activities.

3. The period of delay in completion of syllabus (in months).

1

4. The period of delay in conducting exams (in months).

1

Portal Name	No. of students offered online courses which have credit transferred to transcript	Total no. of online courses which have credit transferred to the transcript	Total no. of credits transferred to transcript
